PROFILE SUMMARY

Senior UI/UX Designer and Product Designer with 5+ years of experience designing web, mobile, SaaS, enterprise, and AI-powered products across B2B and B2C domains. Skilled in user research, information architecture, interaction design, usability testing, design systems, and end-to-end product design. Experienced in collaborating with cross-functional teams to deliver scalable, user-centered digital solutions that align business goals with user needs.

SKILLS

User Experience (UX)

Product Design • User Research • User Interviews • Usability Testing • Information Architecture • User Personas • User Journey Mapping • Task Flows • Wireframing • Prototyping • Interaction Design • UX Strategy • Heuristic Evaluation • Accessibility (WCAG)

User Interface (UI)

Web Design • Mobile App Design • Responsive Design • Design Systems • Component Libraries • Visual Hierarchy • Typography • Micro-interactions • UI Patterns • Visual Design • Branding Integration

Product & Collaboration

Product Thinking • Design Thinking • Stakeholder Management • Cross-Functional Collaboration • Agile Methodology • Requirements Analysis • Developer Handoff

AI & Emerging Design Skills

AI-Assisted Design Workflows • Prompt Engineering • AI-Driven UX Research • Generative AI for Design • ChatGPT • Claude • UX Pilot • Figma Make

Creative Skills

Graphic Design • Logo Design • Branding • Illustration • Photography

WORK EXPERIENCE

Senior UI/UX Designer

Alignminds Technologies Private Limited , Kochi Oct 2022-Present

- Led UI/UX design for 20+ web and mobile applications, including full product development and feature-level enhancements for enterprise and SaaS platforms.
- Conducted user research through stakeholder discussions, user interviews, surveys, and usability testing to understand user behaviors, needs, and pain points.
- Created detailed user personas, journey maps, task flows, and information architecture to support user-centered design decisions.
- Designed end-to-end user experiences including wireframes, high-fidelity UI mockups, and interactive prototypes using industry-standard design tools.
- Leveraged AI-assisted design tools and workflows to accelerate ideation, improve design efficiency, generate UX insights, and streamline design processes.
- Collaborated closely with product managers, developers, and QA teams to deliver scalable, production-ready design solutions.
- Established structured design systems, UI standards, and reusable components to maintain product consistency and scalability.
- Improved user workflows by identifying UX gaps and implementing data-driven design improvements.
- Reduced friction in key user journeys through usability testing and iterative design refinements.

UI/UX Designer | Product Designer

Marc Opportunity Development Ltd, Chennai Jul 2021-Sep 2022

- Conducted end-to-end UI/UX research and design for MARC C2C platform and Asset Management software.
- Analyzed business requirements and translated them into user flows, wireframes, prototypes, and high-fidelity UI screens.
- Developed information architecture and process flows for upcoming B2C e-commerce applications.
- Designed and improved platform features by addressing usability issues and optimizing user workflows.
- Collaborated with developers and stakeholders to ensure accurate UI implementation and smooth user experience.
- Participated in design reviews, feature updates, and continuous UI enhancements based on feedback.

UI/UX & Graphic Designer

Branding Beez Digital Marketing Company, Coimbatore Apr 2020-Jun 2021

- Delivered UI/UX design solutions for 10+ client projects across websites and digital applications.
- Conducted user requirement analysis and created wireframes, layouts, and high-fidelity UI designs.
- Redesigned existing applications and websites to improve usability, visual hierarchy, and user engagement.
- Designed branding and marketing assets including logos, social media creatives, posters, packaging, and promotional materials.
- Worked closely with marketing and development teams to ensure consistent brand identity and effective visual communication.
- Supported clients in building cohesive brand experiences across digital platforms.

SELECTED PROJECTS

AutoVista | AI-Powered Vehicle Inspection Platform

Alignminds Technologies

- Led UX research, user journey mapping, wireframing, and UI design for an AI-driven vehicle inspection platform.
- Designed intuitive workflows to improve inspection accuracy and operational efficiency.
- Created high-fidelity prototypes and collaborated with developers to deliver production-ready designs.

CompBldr | Compensation & HR Analytics Platform

Alignminds Technologies

- Designed dashboards, compensation analysis workflows, and job description management interfaces.
- Conducted user research and created user-centered solutions for HR professionals and business stakeholders.
- Developed scalable UI patterns and reusable design components.

ReviewCloud | Performance Management Platform

Alignminds Technologies

- Designed performance review, competency management, and employee feedback workflows.
- Created wireframes, interactive prototypes, and responsive user interfaces.
- Collaborated with product and engineering teams to improve usability and user engagement.

Safa Water | Water Delivery & Distribution Platform

Alignminds Technologies

- Led UX research and user journey mapping for customer ordering and delivery management workflows.
- Designed web and mobile experiences focused on ease of ordering, account management, and delivery tracking.
- Conducted usability testing and design reviews to ensure consistency and accessibility.

TraineryLMS | Learning Management System

Alignminds Technologies

- Designed learner onboarding, course management, and training progress tracking experiences.
- Conducted UX research and usability analysis to enhance learner engagement.
- Created responsive UI designs and interactive prototypes.

MARC C2C Platform | Business Networking Platform

MARC Opportunity Development Ltd

- Designed end-to-end user experiences for a business networking and proposal management platform.
- Created user flows, wireframes, and high-fidelity UI screens for key platform features.
- Collaborated with stakeholders to optimize workflows and improve user experience.

Asset Management System | Enterprise Software

MARC Opportunity Development Ltd

- Conducted UX research and designed workflows for asset tracking and management operations.
- Developed information architecture, wireframes, and interactive prototypes.
- Worked closely with development teams to ensure accurate implementation of designs.

Sahayatri | Association Management Platform

Branding Beez

- Designed a digital platform for the All-India Autorickshaw Drivers Association.
- Conducted user research, created personas, and designed user-friendly service management workflows.
- Developed interactive prototypes and high-fidelity UI designs for user validation and testing.
